PROFILE

I am a passionate and skilled web developer with a keen eye for detail. I am tremendously committed towards achieving high levels of excellence towards any project, my career and my workplace while adding considerable value to my organisation. With 3 years of work experience in frontend web development and almost a lifetime experience of solving problems using technology, I am a versatile and capable developer.

Additionally, I possess a personable demeanor and my presence fosters a positive atmosphere which makes me a good player to have on your team. I am enthusiastic about the unlimited opportunities in the tech ecosystem and I am eager to contribute my skills to its development.

WORK EXPERIENCE

Frontend Web

Developer/Technical Support Specialist

Hamatan Limited

November 2020 - present

- I was an integral part of the team working on a company project named Boonplace, which involved the creation of an online gift registry and e-commerce platform. Throughout this project, I collaborated closely with a proficient PHP backend developer responsible for constructing the backend infrastructure using the Laravel PHP framework. Meanwhile, my focus and responsibilities were dedicated to the development of frontend blades, assets, and routes, setting up the payment gateway and ensuring a seamless and engaging user experience. Following the launch of the product, it was also my responsibility to introduce Boonplace to our target audience. In this capacity, I conducted a comprehensive presentation explaining its utility, functionality, and the specific problem it was designed to address. This involved explaining how the platform is used effectively and how it solves important gifting and logistics challenges in the Nigerian celebration industry, also known as Owambe.
- I was actively involved in a web3 project with a primary objective of establishing a universally accepted token for the renowned Big Brother Naija reality show. In my role, I assumed responsibility for the development of the project's website frontend.
- Writing and reviewing code for websites typically using HTML, CSS, PHP and/or JavaScript.
- Maintaining, expanding, and scaling of websites.
- Coordinating communications between multiple departments and teams.
- I provide assistance to my co-workers and customers encountering technical issues with hardware or software systems within the company's structure. I diagnose and resolve problems while also offering guidance, and ensuring smooth day-to-day operation. I do a lot of troubleshooting, solution proffering, and delivering customer service where need be.
- I designed and developed the official corporate website of the above company, hamatanltd.com, using the WordPress content management system (CMS). Furthermore, I used the WordPress CMS to develop two additional websites: onyikechinedum.dev, which serves as my personal portfolio, and joeonyikeco.com, tailored for Joe Onyike and Company, a real estate organisation.

CHINEDUM AKAJIAKU ONYIKE

WEB DEVELOPER

BIODATA

Sex: Male

Language(s): English and Igbo

Nationality: Nigerian

HOBBIES AND INTERESTS

- Watching and playing sports like football, volleyball and rounders games
- Reading history and educational books.
- Travelling.
- Playing video games.

VOLUNTEER WORK

Web Developer

TedX Enugu (Previously TedX Bissalla Road)

February 2022 - Present

- I developed the website used for ticket sales and promotions of a TED Talk event in Enugu, specifically TEDx Bissalla Rd. in 2022 as a volunteer.
- I implemented a Paystack storefront to streamline ticket sales for enhanced user convenience and data security and to facilitate seamless access to sales data for my team members.

ADDITIONAL WORK EXPERIENCE

Equipment Maintenance Intern

Geoplex Drillteq Limited July 2018 to December 2018 (6 months)

- Keeping the equipment maintenance logbook up to date.
- Routine maintenance and servicing of company equipment including: wireline units, generators, forklifts, air compressors, trucks etc.
- Maintenance and cleaning of wireline/slickline tools and equipment.
